

Course Codes for International Languages as described in the curriculum policy documents Classical and International Languages - Grades 9 and 10 (1999) and Classical Studies and International Languages - Grades 11 and 12 (2000)

Codes des cours de langues internationales décrits dans les programmes-cadres Langues classiques et langues internationales - 9^e et 10^e année (1999) et Études classiques et langues internationales - 11^e et 12^e année (2000)

As outlined in the curriculum policy documents, every international language has two codes. The first code will be used for courses taken by students who have no previous knowledge of the language. The second code will be used for courses taken by students who have previous knowledge of the language.

Comme le précisent les programmes-cadres, chaque cours de langues internationales possède deux codes. Le premier code est utilisé pour les cours offerts aux élèves pour qui la langue enseignée est une langue étrangère. Le deuxième code est utilisé pour les cours offerts aux élèves qui ont des antécédents dans la langue enseignée.
