# School Board Funding Projections for the 2006–07 School Year

---

The following tables contain projected board-by-board allocations of the grants as well as other related information for the 2006–07 school year. These projections have been prepared by the Ministry of Education and are based on enrolment data provided by school boards.

These tables are intended to project the effect on school board revenues of changes in enrolment, new investments, and refinements to education funding for the 2006–07 school year. Actual revenue over the course of the school year varies because of changes in enrolment and other factors that affect funding.

The funding through some of the allocations from 1998-99 to 2005-06 is not comparable to the 2006-07 projections because of grant realignments and the introduction of the School Foundation Grant in 2006-07. The data in the tables from prior years is drawn from the most recent financial updates (such as Revised Estimates or Financial Statements) submitted to the Ministry by school boards.

## Allocations for Operating Purposes by Type of Grant

This section shows the grant allocations for operating purposes for each board. Allocations for operating purposes include funding from the Pupil Foundation Grant, the School Foundation Grant\*, the special purpose grants, and the School Operations component of the Pupil Accommodation Grant.\*\*

## Capital and Other Allocations

This section presents the funding made available for retirement gratuities (1998–99), school renewal, new pupil places, good places to learn, prior capital commitments, and school authorities.

---

\* The grant structure was re-aligned in 2006–07 and a School Foundation Grant was introduced.

\*\* The allocations for 1998–99 and 1999–2000 also include Phase-In Funding which ended in 1999–2000, and a one-time Stable Funding Guarantee for 1999–2000. Since its introduction in 1998–99, take up for the Early Learning Grant declined each year, leading to its elimination in 2005–06.

This section also shows the amount of funding that was available from 2000–01 to 2003–04 for reinvestment as a result of the recovery of savings from the Ontario Municipal Employees Retirement System (OMERS) pension contribution holiday.

## **Enrolment**

The measure of enrolment used for funding purposes is the average daily enrolment (ADE) of pupils. Boards report the full-time equivalent of pupils enrolled for each school as of October 31 and March 31, the two count dates in school boards' fiscal year. The calculation of ADE is based on an average of the full-time equivalent pupils reported on the two count dates.

## **School Utilization**

This section details average school utilization data for each board in 2005–06.

## **Unallocated Funding**

Some funding for 2006–07 is not yet allocated to school boards. This includes funding for trustee remuneration, capital programs, and other adjustments

## **Funding Outside the Grants for Student Needs Funding Regulation**

The Government is undertaking initiatives outside the Grants for Student Needs (GSN) to invest in student success. These initiatives will provide \$200 million in 2006–07.

Note:

Totals may not add up due to rounding

- 1) The funding through these allocations from 1998-99 to 2005-06 is not comparable to the 2006-07 projections because of grant realignments and the introduction of the School Foundation Grant in 2006-07.
- 2) Figures have been restated to reflect the transfer of funding responsibility for non-credit Adult ESL/FSL to the Ministry of Citizenship and Immigration and will be different from previous publications of this report.
- 3) Declining enrolment adjustment in 2005-06 includes a one-time funding increase of \$53M.
- 4) 2005-06 Revised Estimates include adjustment to the High Needs amount of the Special Education allocation.
- 5) Unallocated funding in 2006-07 includes funding for trustee remuneration, capital programs and other funding.
