Special Incidence Portion (SIP)
Special Incidence Portion (SIP)

Continuing in 2012-13, school boards may apply for Special Incidence Portion (SIP) funding for staff support to ensure the health and safety both of students who have extraordinarily high needs related to their disabilities and/or exceptionalities and of others at school.

Where approved, the Ministry will grant up to a maximum of $27,000 per full time (1.0 ADE) student per year. In the case of junior and senior Kindergarten students funded by the Ministry for the Full Day Early Learning Kindergarten Program, where approved, the Ministry will grant up to a maximum $27,000. All other junior and senior Kindergarten claims will be funded to a maximum of $13,500.

For all SIP claims, the Ministry requires that the identified additional supports be in place to respond to the student’s needs prior to submitting an application for additional funding for staff support. Submissions for 2012-13 SIP funding are due on December 14, 2012.

Boards will ensure that, in addition to any other obligations to give notice under the Municipal Freedom of Information and Privacy Act (MFIPPA), the board has informed the parent that a SIP claim had been submitted to the Ministry, in accordance with this guideline, to partially offset the cost of support and services provided by the board for their child.

The SIP allocation for the 2012-13 fiscal year is the sum of all approved special incidence claims for pupils of the board, after any adjustment required under section 25 of the Grants for Student Needs Regulation.

Eligibility Criteria for SIP

Health and Safety

School boards may apply for SIP funding on behalf of students who require more than two full-time equivalent board-paid staff providing intensive support for the health and safety of the applicant student, other students and/or staff. This additional support may be provided by behavioural assistants, teachers’ assistants, education assistants, child and youth workers, health/personal care assistants or any other equivalent assistants.

The student will be enrolled in a regular class with special education support or a special education class.

A health claim may be submitted on behalf of a student who has a diagnosed medical condition that requires more than two full-time board paid staff to provide intensive support to maintain the health of the student.
Applications for Health Claims must be accompanied by the Health Claims Checklist (Appendix E). If the claim meets the criteria for the Health Claim Checklist it may be considered for approval in 2012-13 for a three-year period. For year 2 and year 3 the amount of funding will be determined by the re-submission of the timetable (Appendix D).

A safety claim may be submitted on behalf of a student who requires more than two full-time board paid staff to provide intensive support for the safety of the student and/or others from behaviour that is injurious to self and/or others. In 2012-13 boards will be asked to submit the Characteristics Form for Safety Claims (Appendix F) for all safety claims.

Health and safety claims are those combining aspects of both health and safety claims.

**Staff Support Level Timetable**

SIP is intended to offset the additional staff costs for a student who needs more than two full-time equivalent staff providing intensive support according to the formula in the SIP Staff Support Level Timetable (Appendix D). Funding approval will be based on the current school year timetable at the time of submission.

The SIP Staff Support Level Timetable submitted on or before December 14, 2012 in support of a claim for 2012-13 SIP funding (new, renewal or renewal adjusted) must demonstrate staff support in place in the 2012-13 school year.

**Eligible Board-Paid Staff Support**

Staff counted in the Staff Support Level Timetable must be supporting the student for at least 10% of the student's hours during a week on a regularly scheduled basis, for the entire school year.

Time spent by behavioural assistants, teachers' assistants, child and youth workers, health/personal care assistants or any other equivalent assistants may be included on the timetable, provided that these staff are spending regularly scheduled time with the applicant student and the support is documented in the current Individual Education Plan (IEP).

Classroom teacher time can be counted as intensive support where the teacher is a special education teacher in a special education class. A special education teacher providing support to the applicant student enrolled in a regular class can also be counted. The total number of students in the class must be shown in the appropriate column(s) in the timetable.

**Only staff with a special education assignment can be included in the calculation of intensive support.** Teacher time in a regular classroom is not included in the calculation of intensive support. These teachers’ salaries are funded through the Foundation Grant.
The time that the student spends with other students can be counted as part of the claimed level of support as long as the assigned support person(s) are in attendance and small group interaction is part of the student’s program.

The Staff Support Level Timetable should not include time spent by board-paid professional staff (e.g. psychologist, social worker, etc.) except in exceptional circumstances where the board documents that a student’s program includes a significant level of regularly scheduled interactions with the student by board-paid professional staff. This support must total at least 10% of the student’s hours during a week on a regularly scheduled basis and continue over the school year. The scheduled time must be shown on the timetable in column C and must be documented in the current IEP. (Column C)

<table>

</tr>
</tbody>
</table>

**Staff Support Calculation**

It should be noted that "more than two full-time equivalent board-paid staff" does not necessarily mean that the same two or more people are assigned exclusively to one student. Rather, the total of all eligible board staff interacting with the student will be added up to arrive at the number of full-time staff supporting the student.

The Staff Support Level timetable will be used to report all staff supporting the student.

For all SIP applications the calculation formula uses a 300 minute student day to determine the amount of SIP funding to be provided for an eligible student up to a maximum of $27,000 per student for full-time students (1.0 ADE) including junior and senior Kindergarten students funded by the Ministry for the Full Day Early Learning Kindergarten Program. All other junior and senior Kindergarten claims will be funded to a maximum of $13,500.

or, Staff Support Level = #staff divided by # students, multiplied by #minutes divided by 300
Total Staff Support Level __________

(as determined at time of application found in Appendix D: Staff Support Level Timetable Box "D")

(_________ total staff support - 2.0 ) x $27,000 = _______

Documentation Required for SIP Claims

All documents submitted to support SIP claims must reflect the student’s programs and services for the current school year (2012-13).

December 14, 2012 is the submission deadline for the documentation in support of SIP applications. Only claims received on or before the December 14, 2012 submission deadline will be considered for funding in the 2012-13 school year.

A checklist of required documents has been provided for all claims (Appendix A). This checklist is to assist staff in claim preparation. Please note:

All SIP claims for the 2012-13 school year require a current IEP for the student, signed by the principal, documenting the student’s need for staff support such that the IEP:

1. connects to program and report card,
2. reflects a logical thread from assessment data to the student's areas of strength and need, accommodation and program section,
3. provides, in the program section, measurable learning expectations related to Ontario curriculum for modified subjects/courses, and/or alternative skills areas as appropriate,
4. when the student has SEA equipment, documents the student is using the equipment and, where appropriate, that the student is using the SEA equipment for provincial testing, and
5. documents, in the human resource section, the board-paid staff and support that are identified and shown in the staff support timetable.

When determining if the SIP claim is a health, a safety or a health and safety claim, please determine the primary need for the staff support the student requires.

For SIP claims on behalf of students with a health claim or a health and safety claim, the Characteristics Checklist for Health Claims (Appendix E) must be completed (with all applicable boxes checked). The form must be signed by the Supervisory Officer of Special Education.
For previously approved health claims and health and safety claims that are on a three-year renewal cycle, boards are to submit the application form (Appendix C) and a revised timetable for the current academic year (Appendix D). No further documentation will be required.

For SIP claims on behalf of students with a safety claim, the Characteristics Form for Safety Claims (Appendix F) must be completed. This form should be completed for all students having a safety claim. The form must be signed by the Supervisory Officer of Special Education.

Where a claim is for both health and safety, the Characteristics Checklist for Health Claims (Appendix E) and the Characteristics Checklist for Safety Claims (Appendix F) must be completed.

Claims Process

For each SIP claim the Board will submit to the Ministry by December 14, 2012:

- one paper copy of the relevant documents listed in Appendix A (signed, where appropriate);
- electronic submissions of Appendices B, C and D, and as appropriate, Appendix E; and

SIP Approval Summary for All Claims

The board will submit by December 14, 2012, to the Ministry the following SIP Approval Summary (Appendix G):

- a paper copy that shows all new, renewal/renewal adjusted claims, signed by the Supervisory Officer certifying that the claims submitted are in compliance with this Guideline; and,
- an electronic copy of the same.

Business Cycle/Application Process

Business Cycle
The application process for SIP will continue to be connected to the Ministry’s financial reporting cycle.

Connection to Financial Reporting
In order for school boards to receive SIP funding as part of their regular payments from the Ministry, it is important that board staff provide appropriate information on the expected number of claims and financial allocations within the board’s standard financial reports to the Ministry.

In June of each year, boards should include estimated funding for all SIP claims for the following school year in their Estimates submission for education funding.

In December of each year, boards need to include estimated funding for all SIP claims in their Revised Estimates. This financial information should be provided to each board’s finance department in a timely manner and should be based on the expected number of approved claims and the anticipated amount of funding for these claims.

In the winter of the next year, boards need to include in financial statements their final SIP funding allocation.

**Ministry Review**

During the school year, the Ministry will conduct a review of SIP claim documentation which may include classroom, school and/or board visits. It is expected, at a minimum, that school boards will retain a copy of all documentation to support the claim.

At any time, the Ministry may review any documentation in support of the SIP claim and may conduct classroom, school and/or board visits which may include reviewing:

- safety and/or behaviour logs (updated where appropriate after application has been submitted).
- other relevant documentation maintained by the board documenting the student’s academic program and progress; and
- board training and/or professional development to ensure staff are aware of and trained in appropriate health and/or safety intervention approaches.
The business cycle for the SIP application process will be the following:

<table>

3. SIP Application Form (Appendix C) - signed by the Supervisory Officer

4. SIP Staff Support Level Timetable (Appendix D) - signed by the Principal

5. Characteristics for Health Claims Checklist (Appendix E), for Health or Health & Safety needs - signed by the Supervisory Officer

6. Characteristics for Safety Claims Form (Appendix F), for Safety or Health & Safety needs - signed by the Supervisory Officer

7. Individual Education Plan (IEP) (Current Year)

8. Behaviour Support Plan (Updated for Renewals) and/or Health/Medical Management Plan (Updated for Renewals)

9. Safety Plan, where applicable (Updated for Renewals)

10. Assessments (Updated for Renewals) if available

11. Documentation of Inter-Agency Involvement (Updated for Renewals)

Please Note:

**Behaviour Support Plan (BSP)**

A behaviour support plan is a written plan that is designed to target the underlying reason for behaviour, replace the inappropriate behaviour with an appropriate behaviour that serves the same function, and reduce or eliminate the challenging behaviour. In school boards, behaviour support plans are sometimes referred to as behaviour management plans.

**Safety Plan**

A safety plan is a plan developed for a student whose behaviour is known to pose an ongoing risk to him or herself, other students, staff, or other people in general. It can serve as a crisis-response plan that outlines the roles and responsibilities of the staff in dealing with specific problem behaviours. The development of a safety plan involves all staff who work on an ongoing basis with a student, as well as parents and the representatives from any community agencies working with the student/family.

**SIP, Spring 2012**
Appendix E: Characteristics Checklist for Health Claims

Adapted from the Report of the Paediatric Complex Care Coordination Expert Panel May 2008
CHECK all characteristics that apply:

1. Technology dependent and/or users of high intensity care during the school day
   □ Child is dependent at least part of each school day on mechanical ventilators.
   □ Child requires prolonged intravenous administration of nutritional substances, or drugs.
   □ Child has prolonged (>1 month) dependence on other device-based support, including:
     • tracheostomy tube care,
     • suctioning,
     • oxygen support, or
     • tube feeding.
   □ Child has prolonged (>1 month) dependence on any other medical device to compensate for vital bodily function, and requires daily or near daily nursing care, e.g.,
     • apnea (cardiorespiratory) monitors
     • renal dialysis due to kidney failure
     • urinary catheters or colostomy bags plus substantial nursing care.
   □ Child is not technologically dependent but has any chronic condition that requires as great a level of care as the above group, such as:
     • children who, as a consequence of their illness, are completely dependent on others for activities of daily living at an age when they would not otherwise be so dependent
     • children who require constant medical or nursing supervision or monitoring resulting from the complexity of their condition and/or the quantity of oral drugs and therapy they receive.

2. Fragility
   □ The child has severe and/or life-threatening disease.
   □ Failure of equipment or treatment places the child at immediate risk.
   □ Short-term changes in the child’s health status (e.g., an intermittent illness) puts them at immediate serious health risk.
   □ As a consequence of the child’s illness, the child remains at significant risk of unpredictable life-threatening deterioration, necessitating round-the-clock monitoring by a knowledgeable caregiver.
   □ The child has had >3 or more admissions to hospital lasting 10 or more days in the past year.
   □ The child has had >10 or more outpatient clinic visits in the past year.

3. Chronicity
   □ The child’s condition is expected to last at least 6 more months.

4. Complexity
   □ Involvement of multiple health care practitioners.
   □ Health care services delivered in at least 3 of the following locations:
     • Home
     • School
     • Hospital
     • Children’s Treatment Centre
     • Community-based clinic (e.g., doctor’s office)
     • Other (at clinician’s discretion).

Certification:
I certify that the information contained in this document is to the best of my knowledge a reflection of the student’s health at the time of application.

Appendix F: Characteristics Checklist for Safety Claims

Note: An electronic version will be available through the Ministry’s Regional Offices.

For SIP claims on behalf of students with a safety claim, the Characteristics form for Safety Claims (Appendix F) must be completed. This form should be completed for all students.

1. In general, incidents do not result in injury to student or others.
2. In general, incidents result in minor injury or trauma not requiring medical treatment.
3. In general, incidents result in injury or trauma requiring medical treatment at the school level for either the student or others.
4. Incidents have resulted in injury or trauma requiring medical treatment at a hospital for either the student or others.

COMPLETE the table below. Note space available for text is limited.
