1. Appendix C: Building/Classroom Accommodations section has been removed.
2. Under Application Type: New, Renewal and Renewal Adjusted, Renewal Adjusted has been removed. Please classify all applications as either New or Renewal. Please note that applications previously approved for a three year cycle should also be considered a Renewal in year one of a new cycle.
3. As all Ontario schools, which include the primary division, will offer full-day kindergarten in September 2014, the forms have been revised to remove reference to the JK/SK Day Structure. Where approved, the Ministry will grant up to a maximum of \$27,000 per full time (1.0 ADE) student per year.

However as some students may be in half-time attendance for other reasons, boards may indicate if a student has a modified day/half day on Appendix C. A student in a modified day/half day program is eligible for a maximum of \$13,500 in funding.

A health claim or a health and safety claim may be submitted on behalf of a student who, as a consequence of their diagnosed medical condition, is dependent on more than two full-time board paid staff to provide intensive support for activities of daily living including health and/or safety at an age when they would not otherwise be so dependent.

Appendix E should be filled out for all Health and Health and Safety Claims. A claim should be considered a Health and Safety claim where the required level of support is due or partially due, to a condition diagnosed by a medical practitioner.

Applications for Health Claims must be accompanied by the Health and Health and Safety Claims Checklist (Appendix E). If the claim meets the criteria for the Health and Health and Safety Claim Checklist it may be considered for approval in 2014-15 for a three-year period. For year 2 and year 3 the amount of funding will be determined by the re-submission of the timetable (Appendix D).

Boards will receive a summary from the Ministry through their Regional Office in the fall of 2014 outlining the students that have been approved for three year renewals and where in the three year renewal process they currently stand.

For students who have completed one three year cycle and are beginning another, boards will be asked to resubmit all applicable documentation as per these guidelines.

Ó [ æ | á • Á æ | ^ Á æ | • [ Á æ • \ ^ á Á c [ Á | ^ & [ | á Á c @ ^ Á • c æ c ~ •  
Appendix C: Special Incidence Portion (SIP) Application Form while ensuring that this is aligned with the Board summary provided by the Ministry.

In the event a student moves during the three year renewal cycle to another Ontario school board, and qualifies for SIP funding as per these guidelines, the claim will be considered a new claim, and all applicable documentation should be  
• ~ à { ã c c ^ á Á c [ Á c @ ^ Á T ã } ã • c ! ^ Á , ã c @ Á c @ ^ Á à [ æ | á q •

Continuing in 2014-15, school boards may apply for Special Incidence Portion (SIP) funding for staff support to ensure the health and safety both of students who have extraordinarily high needs related to their disabilities and/or exceptionalities and of others at school.

Where approved, the Ministry will grant up to a maximum of \$27,000 per full time (1.0 ADE) student per year. . A student in a modified day/half day program is eligible for a maximum of \$13,500 in funding.

For all SIP claims, the Ministry requires that the identified additional supports be in ] | æ & ^ Á c [ Á ! ^ • ] [ } á Á c **prior to submitting an application for** ^ ^ á • Á additional funding for staff support. Submissions for 2014-15 SIP funding are due on December 15, 2014.

Boards will ensure that, in addition to any other obligations to give notice under the Municipal Freedom of Information and Privacy Act (MFIPPA), the board has informed the parent that a SIP claim had been submitted to the Ministry, in accordance with this guideline, to partially offset the cost of support and services provided by the board for their child.

The SIP allocation for the 2014-15 fiscal year is the sum of all approved special incidence claims for pupils of the board, after any adjustment required under section 25 of the Grants for Student Needs Regulation.

## **Eligibility Criteria for SIP**

### **Health and Safety**

School boards may apply for SIP funding on behalf of students who require more than two full-time equivalent board-paid staff providing intensive support for the health and safety of the applicant student, other students and/or staff. This æ á á ã c ã [ } æ | Á • ~ ] ] [ ! c Á { æ ^ Á à ^ Á ] ! [ ç ã á ^ á Á à ^ Á à ^ @a education assistants, child and youth workers, health/personal care assistants or any other equivalent assistants.

The student will be enrolled in a regular class with special education support or a special education class.

A health claim may be submitted on behalf of a student who, as a consequence of their diagnosed medical condition, is dependent on more than two full-time board paid staff to provide intensive support for activities of daily living including health and/or safety at an age when they would not otherwise be so dependent.

Applications for Health Claims must be accompanied by the Health and Health and Safety Claims Checklist (Appendix E). If the claim meets the criteria for the Health and Health and Safety Claim Checklist it may be considered for approval in 2014-15 for a three-year period. For year 2 and year 3 the amount of funding will be determined by the re-submission of the timetable (Appendix D).

A safety claim may be submitted on behalf of a student who requires more than two full-time board paid staff to provide intensive support for the safety of the student and/or others from behaviour that is injurious to self and/or others.

Health and safety claims are those combining aspects of both health and safety claims.

## Staff Support Level Timetable

SIP is intended to offset the additional staff costs for a student who needs more than two full-time equivalent staff providing intensive support according to the formula in the SIP Staff Support Level Timetable (Appendix D). Funding approval will be based on the current school year timetable at the time of submission.

The SIP Staff Support Level Timetable submitted on or before December 15, 2014 in support of a claim for 2014-15 SIP funding (new or renewal) must demonstrate staff support in place in the 2014-15 school year.

### Eligible Board-Paid Staff Support

Staff counted in the Staff Support Level Timetable must be supporting the student for at least 10% of the student's hours during a week on a regularly scheduled basis, for the entire school year.

Time spent by behavioural assistants, teachers' assistants, child and youth workers, health/personal care assistants or any other equivalent assistants may be included on the timetable, provided that these staff are spending regularly scheduled time with the applicant student and the support is documented in the current Individual Education Plan (IEP).

Classroom teacher time can be counted as intensive support where the teacher is a special education teacher in a special education class. A special education teacher providing support to the applicant student enrolled in a regular class can also be counted. The total number of students in the class must be shown in the appropriate column(s) in the timetable.

**Only staff with a special education assignment can be included in the calculation of intensive support.** Teacher time in a regular classroom is not funded through the Foundation Grant.

The time that the student spends with other students can be counted as part of the claimed level of support as long as the assigned support person(s) are in

The Staff Support Level Timetable should **not** include time spent by board-paid professional staff (e.g. psychologist, social worker, etc.) except in exceptional significant level of regularly scheduled interactions with the student by board-paid during a week on a regularly scheduled basis and continue over the school year. The scheduled time must be shown on the timetable in column C and must be documented in the current IEP. (Column C)

Start/Finish Times	Column A	Column B	Column C
	Educational Assistants	Teachers	Other Staff

### Staff Support Calculation

It should be noted that "more than two full-time equivalent board-paid staff" does not necessarily mean that the same two or more people are assigned exclusively to one student. Rather, the total of all eligible board staff interacting with the student will be added up to arrive at the number of full-time staff supporting the student.

The Staff Support Level timetable will be used to report all staff supporting the student.

For all SIP applications the calculation formula uses a 300 minute student day to determine the amount of SIP funding to be provided for an eligible student up to a maximum of \$27,000 per student for full-time students (1.0 ADE). A student in a modified day/half day program is eligible for a maximum of \$13,500 in funding

Calculation of Staff Support Level per Activity (refer to Appendix D)	
# of staff _____	# of minutes (activity) _____
x	
# of students	300 minutes (day)
or, Staff Support Level = #staff divided by # students, multiplied by #minutes divided by 300	

<p><b>Total Staff Support Level</b> _____</p> <p>(as determined at time of application found in Appendix D: Staff Support Level Timetable Box "D")</p> <p>( _____ total staff support - 2.0 ) x \$27,000 = _____</p>
--

## Documentation Required for SIP Claims

All documents submitted to support SIP claims and services for the current school year (2014-15).

December 15, 2014 is the submission deadline for the documentation in support of SIP applications. Only claims received on or before the December 15, 2014 submission deadline will be considered for funding in the 2014-15 school year.

A checklist of required documents has been provided for all claims (Appendix A). This checklist is to assist staff in claim preparation. Please note:

All SIP claims for the 2014-15 school year require a **current IEP** for the student, signed by the principal, and staff support such that the IEP:

1. connects to program and report card,
2. reflects a logical thread from assessment data to the student's areas of strength and need, accommodation and program section,
3. provides, in the program section, measurable learning expectations related to Ontario curriculum for modified subjects/courses, and/or alternative skills areas as appropriate,
4. when the student has SEA equipment, documents the student is using the equipment and, where appropriate, that the student is using the SEA equipment for provincial testing, and
5. **documents, in the human resource section, the board-paid staff and support that are identified and shown in the staff support timetable.**

When determining if the SIP claim is a health, a safety or a health and safety claim, please determine the primary need for the staff support the student requires.

For SIP claims on behalf of students with a health claim or a health and safety claim, the Characteristics Checklist for Health and Health and Safety Claims (Appendix E) must be completed (with all applicable boxes checked). The form must be signed by the Supervisory Officer of Special Education.

For previously approved health claims and health and safety claims that are on a three-year renewal cycle, boards are to submit application form (Appendix C) and a revised timetable for the current academic year (Appendix D). No further documentation will be required.

### Claims Process

For each SIP claim the Board will submit to the Ministry by December 15, 2014:

- ◁ **one paper copy** of the relevant documents listed in Appendix A (signed, where appropriate);
- ◁ electronic submissions of Appendices B, C and D, and as appropriate, Appendix E; and

### **SIP Approval Summary for All Claims**

The board will submit by December 15, 2014, to the Ministry the following SIP Approval Summary (Appendix G):

- ◁ a paper copy that shows all new and renewal claims, signed by the Supervisory Officer certifying that the claims submitted are in compliance with this Guideline; and,
- ◁ an electronic copy of the same.

## **Business Cycle/Application Process**

### **Business Cycle**

financial reporting cycle.

### **Connection to Financial Reporting**

In order for school boards to receive SIP funding as part of their regular payments from the Ministry, it is important that board staff provide appropriate information on financial reports to the Ministry.

In June of each year, boards should include estimated funding for all SIP claims for the following school year in their Estimates submission for education funding.

In December of each year, boards need to include estimated funding for all SIP claims in their Revised Estimates. This financial information should be provided to expected number of approved claims and the anticipated amount of funding for these claims.

In the winter of the next year, boards need to include in financial statements their final SIP funding allocation.

## **Ministry Review**

During the school year, the Ministry will conduct a review of SIP claim documentation which may include classroom, school and/or board visits. It is

expected, at a minimum, that school boards will retain a copy of all documentation to support the claim.

At any time, the Ministry may review any documentation in support of the SIP claim and may conduct classroom, school and/or board visits which may include reviewing:

- ◁ safety and/or behaviour logs (updated where appropriate after application has been submitted);
- ◁ other relevant documentation maintained by the board documenting the • c ~ â ^ } cenic Årøøæ and progress; and
- ◁ board training and/or professional development to ensure staff are aware of and trained in appropriate health and/or safety intervention approaches.

## **SIP Application Process for School Boards for the 2014-15 school year**

The business cycle for the SIP application process will be the following:

### **June 30, 2014**

- ◁ Boards will submit in their Estimates financial report to the Ministry their projected SIP funding for the next school year.

### **December 15, 2014**

- ◁ Boards will submit to the Regional Office:
  - the SIP Approval Summary (see Appendix E) of their SIP new and renewal claims; and
  - all documentation required for each individual claim as per checklist (Appendix A).
- ◁ Boards will submit in their Revised Estimates financial report to the Ministry their revised SIP funding projection for new and renewal claims, for the current school year.

### **June 30, 2015**

- ◁ The Ministry will have reviewed, approved and finalized all new and renewal SIP claims.
- ◁ The Ministry will notify boards of the decisions made.

### **Fall/Winter 2015**

- ◁ Financial statements of boards will identify the final SIP funding allocation.

10.	Documentation of Inter-Agency Involvement ( <i>Updated for Renewals</i> )	

**Please Note:**

**Behaviour Support Plan (BSP)**

A behaviour support plan is a written plan that is designed to target the underlying reason for behaviour, replace the inappropriate behaviour with an appropriate behaviour that serves the same function, and reduce or eliminate the challenging behaviour. In school boards, behaviour support plans are sometimes referred to as behaviour management plans.

**Safety Plan**

A safety plan is a plan developed for a student whose behaviour is known to pose an ongoing risk to him or herself, other students, staff, or other people in general. It can serve as a crisis-response plan that outlines the roles and responsibilities of the staff in dealing with specific problem behaviours. The development of a safety plan involves all staff who work on an ongoing basis with a student, as well as parents and the representatives from any community agencies working with the student/family.
