DATE : January 11, 2012

SUBJECT : Removal of Course Profiles and Exemplars from Ministry Websites

The Course Profiles and Exemplar resources were developed to support the initial version of the Ontario Curriculum (1997 to 2000) and the Program Planning and Assessment (1999) assessment, evaluation, and reporting policy. Since their development, there have been revisions to both policies which have resulted in the resources being out of date and inconsistent with existing policies and practices.

As a consequence, the Course Profiles and Exemplar will be removed from ministry websites early in 2012.

New teaching and learning resources have been developed to support implementation of the revised curriculum and assessment, evaluation, and reporting policies. These resources can be found at <www.edugains.ca>.
