

Ontario Education  
Research Panel

---

Comité ontarien de la  
recherche en éducation

## Our Mission

- To harness, encourage, promote and disseminate the many good examples of research-to-practice already being developed in boards, schools and classrooms
- To build capacity for education research by creating and strengthening relationships among existing organizations and individuals

## Our Purpose

OERP/CORE was established in 2006 to facilitate discussion and collaboration among Ontario's school boards, faculties of Education, researchers, professional organizations, community agencies, and ministries relating to:

- Research priorities for Ontario education
- The state of knowledge in specific areas
- Opportunities for and impediments to the advancement of research
- The potential for future partnerships

OERP/CORE will contribute to the planning and success of the annual Ministry of Education Research Symposium and its outcomes, and will support the ministry's Research Strategy

## Our Strategy

**Be a Catalyst for Research** by promoting activities within and across sectors of the Ontario educational communities

**Identify Research Needs** and their priorities; identify shared areas of interests

**Encourage the Culture of Inquiry** within Ontario's educational communities

**Foster Collaboration** and stimulate new relationships for integrating Ontario research, policy and practice

**Support Knowledge Exchange** and its application to education practice in Ontario for JK to Grade 12
