The 1995-96 Directory of First Nation Education Authorities is a comprehensive listing of First Nations schools, education authorities and education officials.

A key to the layout used in the directory is found on page ii.

The directory is divided into six sections which match the various regions of the Ministry of Education and Training.

The directory was compiled from data in a questionnaire that was sent to all Principals of First Nation schools in April, 1995 and reflects as accurately as possible the information provided in the responses.

The information on the schools showing the Principal, number of staff members and number of students are those for the 1995-96 school year.

The number of teachers represents only full-time teachers.

Comments on the directory are appreciated. Please forward your comments to:

Keith Lickers
